

Driving test 2013 for broodmares in National Stud Dillenburg / Hessen

This performance test took place on 1. November 2013 in the National Stud in Dillenburg / Hessen. Two fjordmares took part in the test. Total : 13 stallions and mares.

The test is, besides the 30 days test, a second possibility for example in the Breeding Association in Hessen, that the mares can get the title (premium) “**Staatsprämie**”.

Mares of different horsebreeds can or must take part in before they reach a defined age. For fjordhorses it is 7 years.

It is a test in one driving presentation:

- walk, trot
- judging behaviour during the driving test
- both weighted with each 50 %

Markscale between 1 and 10. This will in practice mean that the figures used will vary from 3 to 10, with 3 and 10 seldom used.

With the results 7,75 and. 7,5 both mares convinced the three judges very positive.

Sini, born 2006

Total result 7,75

v. PrH , VEH Valoer Halsnaes - a.d. StPrSt, VES Smilla v. VEH Ohlsen

Breeder: Gabi Marberg , Höchstädt - Owner: Alexander Jäger, Mörlenbach
